

Sniffa Runbook

Importing Snort™ Rules into the Sensor Manager Application

Serial	Instruction
	<p>Overview.</p> <p>Snort™ rules (.tar.gz) files can be imported from up to 3 remote locations using a valid Uniform Resource Locator (URL) and/or can be imported from a local rules directory on the host machine.</p> <p>Snort™ rules will be stored centrally in a database, ready to be added into rules policies and configured to be deployed to remote sensors on the network.</p> <p>This runbook includes the tasks needed to be completed, to configure the import scheduler to import Snort™ into the Sensor Manager Application at a regular time every 24 hours.</p>
<p>1.</p>	<p>Go to the Admin panel. Select the 'Configure' menu item. Select the 'Sensors' menu item.</p> 
<p>2.</p>	<p>Right click on a Sensor. Select 'SSH to Sensor' menu item.</p> 
<p>3.</p>	<p>Run Commands. <code># snort -V</code></p> <p>Take a note of the Snort™ version that is installed on the Sensor.</p>
